

# Dingli BA44HRT

## *Hybrid boom lift*

The **Dingli BA44HRT hybrid boom lift** represents a significant advancement in aerial work platform technology, blending **robust performance, impressive reach** and when in electric mode, **eco-friendly operation**.

Designed for versatility and efficiency, this boom lift is engineered to excel in a wide range of industrial and construction environments.

## Machine specification

- **Working height:** 44.06m
- **Horizontal outreach:** 22.97m
- **Reach below ground:** 9.65m
- **Safe working load:** 272kg
- **Closed length:** 13.52m
- **Closed height:** 3.1m
- **Closed width:** 2.44m
- **Platform size:** 0.91m x 2.44m
- **Weight:** 23,950kg
- **Rotation:** Continuous
- **Power:** Hybrid
- **IPAF licence type:** 3b

## Key features

- Rough terrain (4 wheel drive)
- Non-marking tyres
- Articulating boom
- Maximum 2 people on platform
- Suitable for indoor and outdoor use
- Inverter
- Power to platform
- Manufacturer secondary guarding system
- Three steering modes: front-only, front and back and crab
