

Dingli BT22RT

Diesel boom lift

The Dingli BT22RT boasts **power to platform, robust design and smooth operation**. With it's **rough-terrain capabilities and four-wheel drive and steer**, it's ideal for construction, maintenance and other tasks on challenging ground conditions.

Machine specification

- **Working height:** 22.51m
- **Horizontal outreach:** 17.28m
- **Safe working load:** 454kg
- **Closed length:** 9.82m
- **Closed height:** 2.7m
- **Closed width:** 2.5m
- **Platform size:** 2.44m x 0.91m
- **Weight:** 13,000kg
- **Rotation:** Continuous
- **Power:** Diesel
- **IPAF licence type:** 3b
- **Ground condition:** Rough terrain (4-wheel drive & steer)
- **Boom type:** Telescopic
- **People on platform:** 3 maximum
- **Outdoor use:** Yes
- **Power to platform:** Yes
- **Generator:** Yes

Key benefits

- **SkySentry telematics** to allow you to **track machine location, review machine utilisation statistics and monitor and control access as required**.
- For increased safety when working at height, this machine is **fitted with the manufacturer's secondary guarding system**.
- Fitted with **Harness ON™**, an intelligent anchor point that **stops the MEWP's operation until the operator attaches their harness carabiner**.
