

# Dingli 1218RT

## *Diesel scissor lift*

The **Dingli 1218RT** is a powerhouse **designed for demanding sites and outdoor projects**. With **robust rough-terrain capabilities and reliable diesel performance**, it's ideal for applications like construction, maintenance and more.

## Machine specification

- **Working height:** 12m
- **Safe working load:** 454kg
- **Closed length:** 3.84m
- **Closed height:** 2.59m
- **Closed height (guardrails lowered):** 1.82m
- **Closed width:** 1.76m
- **Platform size:** 2.88m x 1.52m
- **Platform length (extended):** 4.31m
- **Weight:** 4,300kg
- **Power:** Diesel
- **IPAF licence type:** 3a
- **Ground condition:** Rough Terrain (4 wheel drive)
- **Outrigger legs:** Yes
- **People on platform:** 4 maximum
- **Outdoor use:** Yes
- **Power to platform:** Yes
- **Generator:** Yes

## Key benefits

- The 1218RT can be **driven at full height, saving time** that would've been spent lowering the platform, moving and returning to height - **saving you approximately 48 seconds** each time.
- **SkySentry telematics** to allow you to **track machine location, review machine utilisation statistics and monitor and control access as required**.
- Fitted with the **SkySiren®PCS™ for Scissors secondary guarding system**, which is designed to **prevent entrapment** using pre-crush sensing technology to **detect potential trap and crush hazards** before they can occur.
